PY0101EN-2.1_notebook_quizz_list_tuplesv4

October 17, 2019

Create a Tuple

create the Tuple (0,1,2,3) and assign it to the variable A:

```
[22]: A=(0,1,2,3)
```

Find the elements of a Tuple

Find the first two elements of the Tuple A :

```
[24]: A[0:2]
```

```
[24]: (0, 1)
```

Lists

For the next few questions, you will need the following list:

```
[26]: B=["a","b","c"]
```

Find the first two elements of the list B:

```
[28]: B[0:2]
```

```
[28]: ['a', 'b']
```

Change the first element of the list to an uppercase "A"

```
[45]: C = B[0]
      B[0] = C.upper()
      B
```

```
[45]: ['A', 'b', 'c']
```

```
[ ]:
```
